Drawings

1. Figures 1-27 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-8, 10-12, 14-21, 23-25, and 27-31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claim 1, the claim is ambiguous. Claim 1 recites the limitation "identifying an alternative route for the failed connection in said network structure which does not utilize said at least one non-sole-access element" in lines 9-10. It is unclear as to whether the limitation should be written as "identifying an alternative route for the failed connection in said network structure which utilizes said at least one non-sole-

Art Unit: 2619

access element", since if there are no non-sole access element in the particular route used by the failed connection then there will be no alternative route to try. The same remark applies to claims 14, 27-29.

Claim Objections

3. Claims 30-31 are objected to because of the following informalities: Applicant is requested to use the acceptable language in computer-processing related claims below to amend these claims in order to avoid the 35 U.S.C. 101 rejection.

Appropriate correction is required.

Examples of acceptable language in computer-processing related claims:

- I. "computer readable medium" encoded with _____
 - [a] "a computer program"
 - [b] "software"
 - [c] "computer executable instructions"
 - [d] "instructions capable of being executed by a computer"
- II. "a computer readable medium" _____ "computer program"
 - [a] storing a
 - [b] embodied with a
 - [c] encoded with a
 - [d] having a stored
 - [e] having an encoded

Allowable subject matter

4. Claims 30-31 would be allowable if rewritten to overcome the objection, and if claims 1, and 14 rewritten or amended to overcome the rejection(s) under 35

U.S.C. 112, 2nd paragraph, set forth in this Office action

5. Claims 2-8, 10-12, 15-21, and 23-25 would be allowable if claims 1, and 14 rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
